Wet Sock Treatment

For your children you may want to refer to this as the "magic" sock treatment. The warming sock treatment is best if repeated for at least 3 nights in a row. Please note, this treatment must only be done at night before bed for it to be effective for both children and adults. It is very important that you do not walk around while wearing the wet socks.

Indications: Sore throat or any inflammation or infection of the throat, neck pain, ear infections, headaches, migraines, nasal congestion, upper respiratory infections, coughs, bronchitis, and sinus infections.

Supplies:

- 1 pair of cotton socks
- 1 pair of thick wool socks
- Ice cubes
- Cold water
- Bowl

Directions:

1. Take a pair of cotton socks and soak them completely with in cold water with ice cubes in a bowl. Be sure to wring the socks out thoroughly so they do not drip.
2. Place cold wet socks on feet. Cover with thick wool socks. Go directly to bed. Avoid getting chilled.
3. Keep the socks on overnight. You will find that the wet cotton socks will be dry in the morning.
